OFFICE OF  
AIR, WASTE AND TOXICS

The Honorable Elwood Patawa  
Chairman  
Umatilla Confederated Tribes Board of Trustees  
P.O. Box 638  
Pendleton, Oregon 97801

Dear Chairman Patawa:

I am writing to let you know that the U.S. Environmental Protection Agency (EPA) has signed the final Non-Title V air operating permits for seven portable asphalt plants. The permits allow operation at specific locations on several Indian reservations and create a procedure for approving additional locations. The permits create emission limits that allow the asphalt plants to be treated as minor sources for air quality purposes. The permits are effective immediately and have no expiration date. Below is a list of permits and the reservations on which they want to operate.

Application		Reservation - State

Copies of the signed permits and technical support documents are enclosed and will be posted on our website <http://yosemite.epa.gov/R10/AIRPAGE.NSF/Tribal+Air/Non+Title+V>. During the public comment period which ended July 19, 2010, EPA received comments on three of the five draft Non-Title V permits and technical support documents relevant to the Umatilla Confederated Tribes. EPA decided not to amend the draft permits as a result of the comments as explained in Section 5.2 of the technical support documents.

Petitions for judicial review of the final Non-Title V permits must be filed in the United States Court of Appeals for the appropriate circuit, as provided in Section 307 (b) of the Clean Air Act, 42 U.S.C. 7607. Filing a petition for judicial review does not stay the effective date of the final Non-Title V permits.

I look forward to continued cooperative efforts between EPA and your Tribe. If you have any questions regarding the final permits, please contact Dan Meyer of my staff at 206.553.4140.

Sincerely,

Nancy Helm, Manager  
Federal and Delegated Air Programs Unit
